TOP LOADING / AUTOCLAVE

**SMART** 

Priorclave's Smart top-loading autoclaves are intended for industrial, research, and production labs and facilities with greater or more diverse needs. They can adeptly handle standard tasks (e.g., media prep, waste loads, labware) but can also produce drier loads and more reliably handle complex loads that tend to trap air. Ideal for mixed waste loads, biological waste or pathogenheavy materials, cloth and textile sterilisation, soil and substrate preparation, wrapped instruments, and porous loads. These sterilisers are among our best-sellers worldwide, owing to their high efficiency and small footprint (relative to chamber size). Features fully customisable cycles (with expanded memory), precycle and post-cycle vacuum, integrated cooling and freesteaming, and air intake filtration.

### SPEAK WITH AN AUTOCLAVE EXPERT

+44 (0)20 8316 6620 • priorclave.co.uk • sales@priorclave.co.uk

Our highly trained service technicians provide dedicated pre- and after-sales support including planned maintenance programmes to ensure you get the most from your Priorclave.

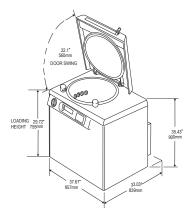

### **KEY FEATURES**

- Quickseal single-action door fitted with thermal and pressure locks to prevent opening at load temperature above 80°C and pressures above 0.2 bar.
- Tactrol® 3 microprocessor control with simple and fully variable setting of process time, temperature with graphic indication of cycle status.
- · Automatic timed free-steaming.
- Forced Air Cooling.
- Pre-cycle vacuum in which multiple Vacuum stages are programmed with interspersed heating to achieve steam penetration.
- Vacuum assisted drying.
- Pulsed freesteaming to maximise efficiency of Pre-cycle vacuum phase.
- Epoxy coated panels and frame members are treated with an anti-bacterial agent which is effective against all bacteria and fungi including MRSA.
- Media Warming and Delayed Start functions keep autoclaved media at a usable temperature ready for immediate use.
- Vacuum Assisted Cooling.
- Supplied with two (100L) or three (150L) stainless baskets.
- Pressure vessel carries a 10 year warranty and is insurance approved.
- Service and support direct from manufacturer (or appointed distributor).

Complies and conforms to relevant international standards including CE & UKCA marking for European PED 2014/68/EU, PD5500:2000 Cat.3 & BS2646-2021. EMC compliance tested and CE/UKCA marked for BS EN 61000 & BS EN 61326.
