Dear Mr. Prior:

Subject: National Board Certificate of Authorization to Register  
Type of Issuance: New  
**EXPIRATION DATE:** December 14, 2015

Enclosed is your company's National Board Certificate of Authorization to register boilers, pressure vessels, and other pressure retaining items manufactured in accordance with a code of construction accepted by the National Board.

A renewal notice for the National Board Certificate will be mailed three (3) months prior to the expiration date shown on the certificate.

The enclosed instructions contain information necessary for the registration process. It is suggested that this information be retained for future reference. If you have any questions, please contact Connie Luckeydoo in the Authorization Department at 614.431.3230.

Yours truly,

Connie Luckeydoo  
Authorizations Administrative Coordinator

INSPECTORS

## GENERAL INSTRUCTIONS FOR REGISTRATION

Your company's National Board Certificate of Authorization to Register is valid only while operating under the company name and location listed on the certificate. In the event the company name and/or location should change, please notify the National Board Authorization Department immediately.

Pressure retaining items registered with the National Board must be constructed in accordance with the code of construction listed on the certificate (ASME and CSA B51, Part 1) only. Inspections must be performed by an Authorized Inspector holding a valid National Board Commission with the applicable endorsement(s).

National Board numbers must be issued consecutively by your company without skips or gaps of unused numbers. Do not duplicate National Board numbers or use alphabetical or numerical prefixes/suffixes in conjunction with the National Board number.

If the type of issuance specified at the top of the enclosed cover letter is "NEW", your company's series of National Board numbers shall start with number "1". If this is a "RENEWAL" issuance, your company's series of National Board numbers shall continue using the next available number.

National Board numbers and the National Board marking may be affixed only to pressure retaining items which are to be registered with the National Board. If the item is not registered with the National Board, the National Board marking shall not appear on the item. Improper or unauthorized use of the National Board marking is a violation of the National Board trademark.

Data reports must be filed on National Board accepted forms or by using National Board's Electronic Data Transfer (EDT) system. The first line of the data report must show your company's name as authorized on the certificate. The original data report must be submitted to the National Board within 60 days after completion.

Items built for stock must be so noted on the data report and registered with the National Board.

If you have any questions, please contact the National Board Authorization Department at (614) 431-3230 or email [authdept@nationalboard.org](mailto:authdept@nationalboard.org).
